Draft Dated March 10, 2009

***Final Dated June 8, 2009***  
***Updated final dated July 13, 2009***

The Final Amended 2009 KWPCRF Intended Use Plan for use of the American Recovery and Reinvestment Act (ARRA) funding is being updated to insure all ARRA funding available to the program is fully utilized, and utilized in a timely manner. As projects are proceeding thru design and into construction actual project costs may not fully utilize all available ARRA funds. Therefore KDHE is moving the “Funding cutoff line” down the priority listing of projects, and providing funding to the additional projects as shown on the following page.
